3. Ms. Cleveland commented that the Intelligence Community has the intelligence; the question is how this intelligence is transformed into action. Ms. Cleveland asked what follow up the Agency does. She was told the Agency may disseminate a follow-up report; however, we do not follow up on what precautions are being taken. There is a split between intelligence and policy. Ms. Cleveland asked how many threats against Beirut are received (about one a day) and how many are considered credible. She was told there are two types of lead: (1) specific--the Agency ensures the information is disseminated to those individuals who need it; (2) generic--(car bombs will be used in Beirut) which is disseminated to a wider audience. There was a discussion on gas enhancement.

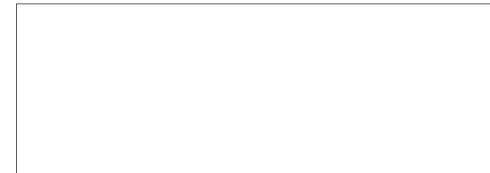

4. Ms. Cleveland asked how the Agency communicates with other people in the Intelligence Community: (1) flashboard; (2) terrorism review; (3) CIR's and (4) TDFIRs. Regarding the TDFIRs, dissemination is made to a designated office in each recipient agency which does the internal distribution. If

information is received which can be put into a TDFIR, it will be done by either the station or the area reports officer. If there is not enough information for a TDFIR, a CIR will probably be prepared. There was a discussion on the dissemination procedures of DIA which disseminates material that is not theirs and disseminates to people who do not have a need for it. The observation was made that FBIS is not a source; they report what has been given to them. Ms. Cleveland was told that the Iranian Desk does a very good calendar of religious holidays, etc.
